Everyone is entitled to their opinions and so are we.  
Please remember that our response needs to be positive not confrontational.

The world will be watching and in order to be taken seriously and respected we must be respectful. We DO NOT CONDONE the use of force or violence by anyone IN WORDS OR ACTIONS.

Anyone committing violent acts is disavowed by the FULLY OPEN CA movement and wehaverights.com. They are plants and/or are acting independently and should be treated as such and not affiliated with this movement.

If you see someone acting violently, immediately move yourself and group/s away from them. Isolate them away from others and notify law enforcement immediately.

## MEDIA INTERVIEWS

We must be prepared for what will be said to the media so our message is clearly communicated. Words can be taken out of context and become damaging.

We understand sometimes it's hard to find the words so we will be helping by giving you highlights and answers to general questions to help you with people who ask what this moment is all about.

**Here is a sample statement:**

**We are demanding that Newsom FULLY REOPEN CALIFORNIA NOW.**

**We demand our rights are restored.**

**We have the right to work and we can do so while exercising preventative safety measures.**

**We CANNOT SURVIVE this shutdown any longer.**

People have been stripped of their rights to freedom of religion. They have no right to shut us down from our churches. The right to practice your religion free from government interference is absolutely essential freedom to every person. This government overreach violates 1st amendment rights and WE WON'T STAND FOR IT!
